

15 July 1976

NOTE FOR: Deputy Director for Operations
Acting Deputy Director for Intelligence

SUBJECT: Intelligence Support for HAK

1. Following our discussion today, I took up with the DCI our proposal for providing special support to HAK--that is, by putting together nuggets and ideas from among which the DCI can choose.

2. This procedure is fine. We should aim to present possibilities to the DCI once or twice a week.

3. One thing is clear in DCI's mind. There is no chance of establishing a set time for DCI-SecState meetings. To get special word to SecState will require a combination of meetings and mailings via Eagleburger.

4. Since most items of interest will be DDO's, I suggest the DDO take the lead in setting up the sessions with the DCI to review candidate items. DDO can notify DDI of the timing to allow DDI to make whatever contributions he will have.
